## WHITWELL'S

### TEMPERANCE BITTERS.

Bitters may now be resorted to without the imputation of dram-drinking. They are composed of some of the choicest roots of our own country, besides those of foreign growth, and in addition to those numerous and highly important ingredients, they also contain as much of the extract of *Sarsaparilla* and *Tomatoes* as any bitters in the market. Price 25 cents for a pint bottle.

*Extract from a respectable Temperance paper.* "The use of tonics or bitters in certain constitutions is unquestionable; therefore, as the firm and unflinching friends of Temperance, we do most sincerely recommend, (especially for females,) the Temperance Bitters, prepared by J. P. Whitwell & Son, in preference to any other composition, where Alcohol or wine alone are employed."

Also, Swayne's Syrup of Wild Cherry, James' Expectant, R. Thompson's Life Preserver, Bull's Sarsaparilla, Wright's Indian Vegetable, Beckwith's, Dr. Leidy's, Brandreth's, Peters, and Dr. Rush's pills, &c., &c.

## NEW SERIES OF THE CONGRESSIONAL GLOBE AND APPENDIX.

*(In 6 Stereotypes.)* THE undersigned originated the mode of journalizing the proceedings of Congress, which presented them entire. Their publication was the first and only one that gave each successive step in every measure in both branches of Congress; a brief of all the debates; every important vote; and an Appendix, including at full length all the revised speeches delivered during the session. The work thus conducted by them is a most perfect political history. The Senators from the States and the Representatives from every section of the Union bring with them into Congress a knowledge of the feelings, sentiments, and interests of their several constituencies. Public opinion, and the public information, as it exists among those they represent, are embodied by them; and in the exercise of Congress the wisdom of our times is brought to its test, and is there concentrated, in directing the political movements of the whole country. The papers thus given through Congress from every quarter reflect upon the nation as a whole, and all its component parts made to move in co-operation. The press cannot be more usefully employed than in condensing and again spreading abroad the intelligence of our free country, tending to such happy results through our almost miraculously adjusted State and National institutions.

Having identified ourselves with the plan of advancing the usefulness of Congress by publishing full and impartial reports, and having a large mass of the Congressional Globe and Appendix, issued during the last ten years, which would be impaired in value to us and utility to the public if the work were discontinued, we have a double motive to prompt us to extend it through a new series. We are resolved, if possible, to give it permanence, and to hand it down to successors as a standard work worthy of being maintained and improved. We shall enter upon our new undertaking without being distracted or burdened by any associate labors of the press; and, thus unincumbered, shall hope to make the new series a step in advance of the former in all points of execution. With a view to accomplish this, we shall be (one or the other) always in attendance in Congress; will compare the manuscripts of our own reporters with the daily reports of the city papers; correct all by our own observation and knowledge of the proceedings; and in all important matters, where that will not assure us of the fidelity of the reports, we will procure the aid of the members themselves to obtain the exact scope of their remarks. The work, thus authenticated, will be stereotyped, which is a guaranty that we will make it as perfect as it is possible for us to make it, as we would not incur the expense of stereotyping it if we did not feel confident of its superiority over all works of the kind which have been or are likely to be published. Stereotyping the work will enable us to supply lost or mutilated numbers, which we will do without making any charge for them.

The Congressional Globe is made up of the daily proceedings of the two Houses of Congress. The speeches of the members are condensed, to bring them into a readable length. All the resolutions offered, or motions made, are given in the mover's own words; and the yeas and nays on all the important questions. It is printed with small type, and is nonpareil on a double royal sheet, in quarto form, each number containing sixteen royal quarto pages.

The Appendix is made up of the President's annual message, the reports of the principal officers of the Government that accompany it, and all the long speeches of members of Congress, written out or revised by themselves. It is printed in the same form as the Congressional Globe, and usually makes about the same number of pages.

We print the numbers as fast as the proceedings of Congress furnish enough matter for a number. During the first month or six weeks of a session there is rarely more business done than will make one number of the Congressional Globe and one number of the Appendix a week; but during the remainder of a session there is usually sufficient matter for two or three numbers of each every week.

The next session will be a long one, and it is supposed will be unusually interesting; therefore we calculate that the Congressional Globe and Appendix will each make near one thousand large quarto pages, printed in small type—brevier and nonpareil. We furnish complete indexes to both at the end of a session.

We have on hand the Congressional Globe and Appendix for the last twelve sessions of Congress, of which five were long and seven were short sessions. The Congressional Globe and Appendix for each session are bound together in excellent binding, with Russia backs and corners. Our prices for them, thus bound together, are \$3 a volume for a short, and \$5 a volume for a long session, making \$46 for a full set. Those who want the back volumes should apply for them immediately, as they are in demand. The last Congress subscribed for two hundred and twenty-six sets; and it is probable that the next will subscribe for at least as many more, as the proceedings of Congress for the last eight years cannot be procured from any other source, Gales & Slaton having stopped printing their Register of Debates in 1837. A few hundred copies of the first volume is all we have on hand.

The next session of Congress will be a long one, and therefore the Congressional Globe and Appendix should be \$2 for the session, which is the price we charge for the unbound numbers of the past long sessions; but we have concluded to reduce the price, as follows, until the first day of next January, after which time the Congressional Globe and Appendix will each be \$2 for the session, and no deduction will be made on account of the number of copies taken.

**TERMS.** For one copy of the Congressional Globe \$1 50 For one copy of the Appendix " 1 50 For four copies of either, or part of both " 5 00 For twenty-five copies of either, or part of both " 25 00

The money may be remitted by mail at our risk. It should be here by the 7th of December, at farthest, to procure all the numbers promptly.

Proprietors of newspapers who copy this Prospectus, and send us one copy of their paper containing it, shall have their names entered on our books for one copy of the Congressional Globe and Appendix during the session.

Our prices for these papers are so low that we cannot afford to credit them out; therefore no person need consume his time in writing for them and not sending the money. **BLAIR & RIVES.** Washington, October 4, 1845. Nov. 4-1m

**WASHINGTON MEDICAL INSTITUTE.** The subscribers have fitted up a spacious Lecture-room at the northeast corner of F and 11th streets, and purpose preparing young gentlemen by lectures and examinations for the best medical schools of the Union, but especially for the Columbian Medical College in this city. The Institute will open on the second Monday of November.

The annual course of instruction will embrace two sessions. The first, from the second Monday of November till the last of February, will be devoted wholly to full examinations on the subjects lectured on in the Columbian Medical College. The second session will commence on the second Monday of March and terminate the last of October; during which instruction will be given on the various branches of medicine by lectures and daily examinations. Students may enter for one or both sessions. Terms made known on application.

**WM. ALBRIGHT, A. M.,** Tutor and Teacher in Preparatory Department.

**H. R. GEIGER, Teacher of Writing.**

The course of studies in Pennsylvania College is as extensive and substantial as that of any institution in the country. The Preparatory Department provides for instruction in all the branches of a thorough English business education, in addition to the Elements of the Mathematics and Classical Literature. The College course is arranged in the four classes usual in the institutions of this country.

The government of the students is as energetic as their circumstances seem to require. They are attended at least two recitations a day, and the Faculty contemplate increasing them to three, Church and Bible Class on the Sabbath, and are visited in their rooms so frequently as to preclude the danger of any great irregularities. It is believed no institution in the United States has more exemplary young men in connexion with it. They are all required to lodge in the College edifice, special cases excepted.

The annual expenses are—for board, tuition and room rent, during the winter session \$61 87 1-2; for the summer session, \$41 87 1-2; washing, \$10, wood, \$3 00. Total expense, \$116 75. Boarding can be had in town at \$1 25 per week.

There are two vacations in the year, commencing on the third Thursdays of April and September; each of five weeks continuance.

The summer session will commence on Thursday, the 22d of May. The annual commencement takes place on the third Thursday in September.

The Trustees have recently made various arrangements which will increase the efficiency of the Institution. They have increased the number of Professors and provided for the most ample instruction of the students.

Professor Baugher and Haupt are prepared to board boys and to exercise a special supervision over their studies and deportment, and Parents who may prefer placing their sons under their care, will be secure in regard to their proper management, under arrangements such as pertain to the family circle.
